CODE ENFORCEMENT OFFICER

RIVERSIDE DRIVE WATER MAIN REPAIRS

The water main servicing Riverside Drive will be shut off on Wednesday, June 17th. from 8AM until 3PM for necessary repairs and upgrades. You will not have water for sink faucets or showers after 8AM.

If you fill your bathtub or some five-gallon pails prior to 8AM you will be able to fill your toilet tank and flush your toilet during this time frame.

This will affect all properties with street addresses from #118 Riverside Drive through #315 Riverside Drive.

When water service is restored, the cold water may look milky (presence of air) or slightly cloudy or discolored. Running your cold-water faucet should clear that up relatively quickly.

Thank you in advance and feel free to contact me with any questions or concerns at 585-443-2123 or at geneseowaterworks@geneseony.gov

Thanks

Dan Quinlan
